Digital Preservation Coalition

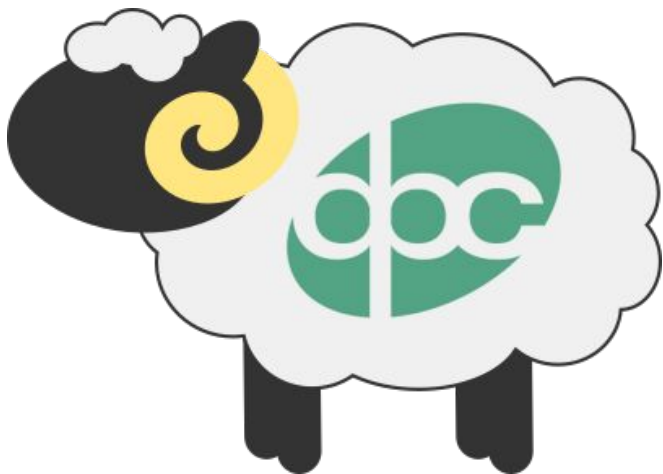

- Originally a charity based in UK and Ireland
- Membership model with members from all over the world
- Foster a digital preservation community
- Advocacy for Digital Preservation activities and challenges
- Offer open access training resources in Digital Preservation
 - Including DPC RAM (Rapid Assessment Model)

What is the DPC RAM?

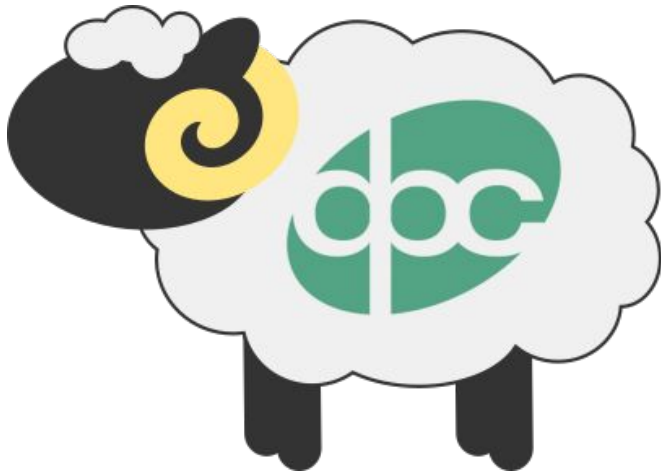

DPC Rapid Assessment Model

Digital Preservation Coalition Rapid
Assessment Model (DPC RAM)

“a digital preservation maturity modelling tool that has been designed to enable rapid benchmarking of an organization’s digital preservation capability and facilitate continuous improvement over time.”

How does DPC RAM work?

[Digital Preservation Coalition Rapid Assessment Model](#) (DPC RAM)

- Freely available online
- Eleven sections covering different aspects of digital preservation.
- Individuals rank your organisation on a maturity scale of 0 to 4 (each defined with examples)
- Huge array of supporting resources including 'Level up with RAM' that helps you achieve next level

Before you start...#2

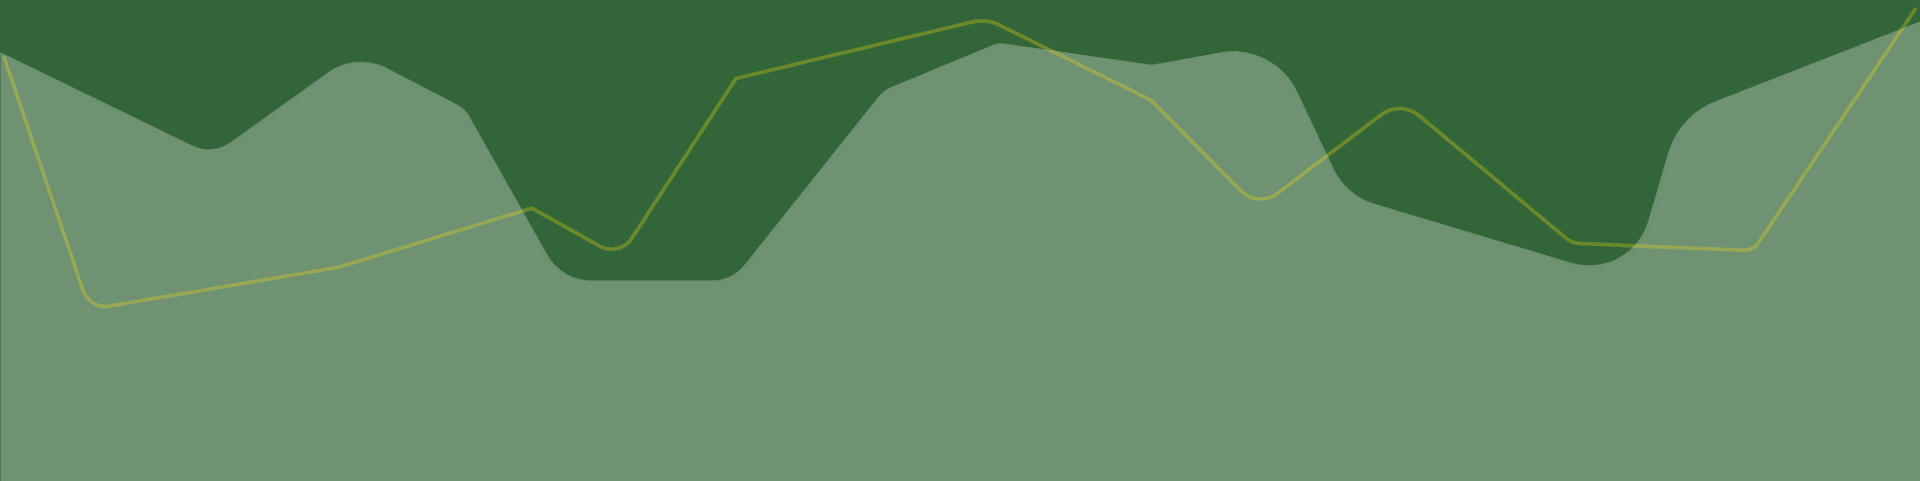

- Next consider the time frame you would like to work to for any targets you will set:
 - 1 year?
 - 3 years?
 - 5 years?
 - Unspecified
- Does your organization have a forward planning period or strategy that you want to align with?
- Does your organization have an annual review cycle that you want to align with?

...if you change your mind as you work through the model you can adjust this later

Exercise

Exercise: Use the DPC RAM to explore your organisation's digital preservation capability

1. Log into Mentimeter and open the DPC RAM document (to be circulated)
2. Read through each capability in turn (about 5 mins)
3. Rank your organisations capability from 0 to 4
4. Submit your score on Mentimeter (dont worry its anonymous)
5. Let's discuss how we could improve your score!
